The Integrated LESSON PLAN 100 pts.

55 pts. - The lesson plan
- Criteria - Check the detailed rubric – This is a shared grade! Don’t forget that all materials for the lesson need to be included.

20 pts. - The actual teaching of the lesson
- Criteria – pacing, poise, use of technology, interaction (small group/large group), tap of prior knowledge, attention-getter, evaluation, and closure. YOUR REFLECTION IS VITAL TO THIS PART OF YOUR GRADE! Discuss the strengths of your lesson, but be sure to include in your reflection the ways that you would improve upon the lesson. Make the reflection show your sense of efficacy.

25 pts. Individual research
- Criteria – THOROUGHNESS - Verification that you have researched and understand the curriculum outcomes, objectives, and content upon which your lesson is based. Show Dr. S. that you have thoroughly researched in order to understand all nuances of the curriculum outcome(s), learning objective(s), and the content of this lesson. You should know more than what you’ve prescribed that the students will learn. Print out websites (or significant parts of them), copy sections of textbooks, etc. that will show what you’ve done to gain understanding for the lesson. Be sure to print out all the items that you considered for use during the lesson; that is, even materials that you’ve used, and those that you didn’t use it.

Remember extra credit for I.E.P. considerations!
